

IRRIGATION SYSTEM MAINTENANCE CHECKLIST

Check your irrigation system on a regular basis to ensure that it is operating effectively and efficiently. Turn on each valve of your irrigation system during daylight hours and perform a maintenance inspection. Some automatic timers allow you to set a test run, or you can program each zone to run for approximately one minute.

Check the following:

GENERAL MAINTENANCE

YES NO

- Is any water being sprayed on the street, driveway, or sidewalk?
- Are there obstructions preventing the water from reaching the desired areas?
- Are there any observable leaks or breaks in the pipe?

SPRINKLER HEADS

YES NO Are any heads...

- missing?
- broken?
- clogged?
- pushed too far into the ground?
- tilted or spraying in the wrong direction?

NOTES: _____

*** Remember to set irrigation timers to comply with the water restrictions.**

No watering between 10 a.m. and 4 p.m.

Addresses ending with an odd number must only irrigate on Wednesday & Saturday.

Addresses ending with an even number must only irrigate on Thursday & Sunday.
